

AMENDED COMMUNITY LAND MANAGEMENT PLANS

The review of Council's community land holdings and current suite of CLMPs identified some parcels of land that would be better placed in alternative CLMPs. This is to ensure management objectives reflect current and future community use and align more closely with objective and performances targets and measures where parcels are similar and managed the same. As a result the below changes are now presented to Council to endorse for community engagement.

Community Land Management Plan	Proposed Amendment	Reason for Amendment
Conservation/ Biodiversity Reserves (Attachment G)	Add Scout Reserve	Recently confirmed as under Council care and control; forms part of the larger Blackwood Hill Reserve and performs identical conservation/biodiversity functions.
Parks (Playgrounds) (Attachment H)	Add Norman Street Reserve	Currently included in the Sporting Complexes CLMP despite functioning as a standalone reserve with a playground; its management needs align with Parks (Playgrounds). The CLMP adopted in 2021 applied only during construction of Tiwu Kumangka; with works complete, the reserve's use aligns with Parks (Playgrounds).
	Add Waite Street Reserve	
Community Centres and Halls (Attachment I)	Add Hawthorn Community Centre	Originally proposed for inclusion in a precinct-level CLMP; now incorporated into existing CLMPs where management requirements align.
Kindergartens (Attachment J)	Add Mitcham Pre-School	As above, now incorporated where ongoing management is best aligned.
	Add (Manson Oval) Montessori Kids	Initially addressed in the standalone Manson Oval CLMP (2022). Now incorporated into the Kindergartens CLMP as its management aligns with objectives and performance targets for kindergartens.
Passive Recreation Reserves (Attachment K)	Add Unnamed Reserve (Craigburn Farm)	Identified during updates to the Community Land Register; required to be included and aligns with passive recreation functions.

	Add Minno Creek Linear Park	Previously incorrectly categorised; aligns with passive recreation functions.
Screening Reserves (Attachment L)	Add Clovelly Avenue Traffic Barrier	Recently confirmed as under Council care and control.
Sport and Community Recreation Complexes (Attachment M)	Add Manson Oval	Initially completed as a priority CLMP in August 2022; now incorporated into the broader Sports & Recreation CLMP to reflect its ongoing community use.
