

FACT SHEET

2020/21 BLACK SPOT PROGRAM

Young Street/Waite Street

BLACKWOOD

LOCATION INFORMATION

Intersection of Young Street and Waite Street, both roads fall under the care and control of the City of Mitcham.

Young Street (Collector Road)	3,800 vehicles per day
Waite Street (Local Road)	2,460 vehicles per day

CRASH HISTORY

Crash history for the past 5 year period (2016-2020);

- 3 x Right Angle Crashes resulting in injury
- 1 x Right Turn Crash resulting in injury
- 2 x Property Damage based crashes

PROPOSED TREATMENTS

Installation of a roundabout with a raised rubber central annulus with recycled coloured glass surface treatment on the outer annulus and flush splitter islands on the approaches. Improved Lighting and resurfacing the intersection with a high friction skid resistant treatment.

This project will achieve;

- ✓ 70% reduction in right turn (opposing turn) type crashes
- ✓ 75% reduction in right angle (adjacent approach) type crashes

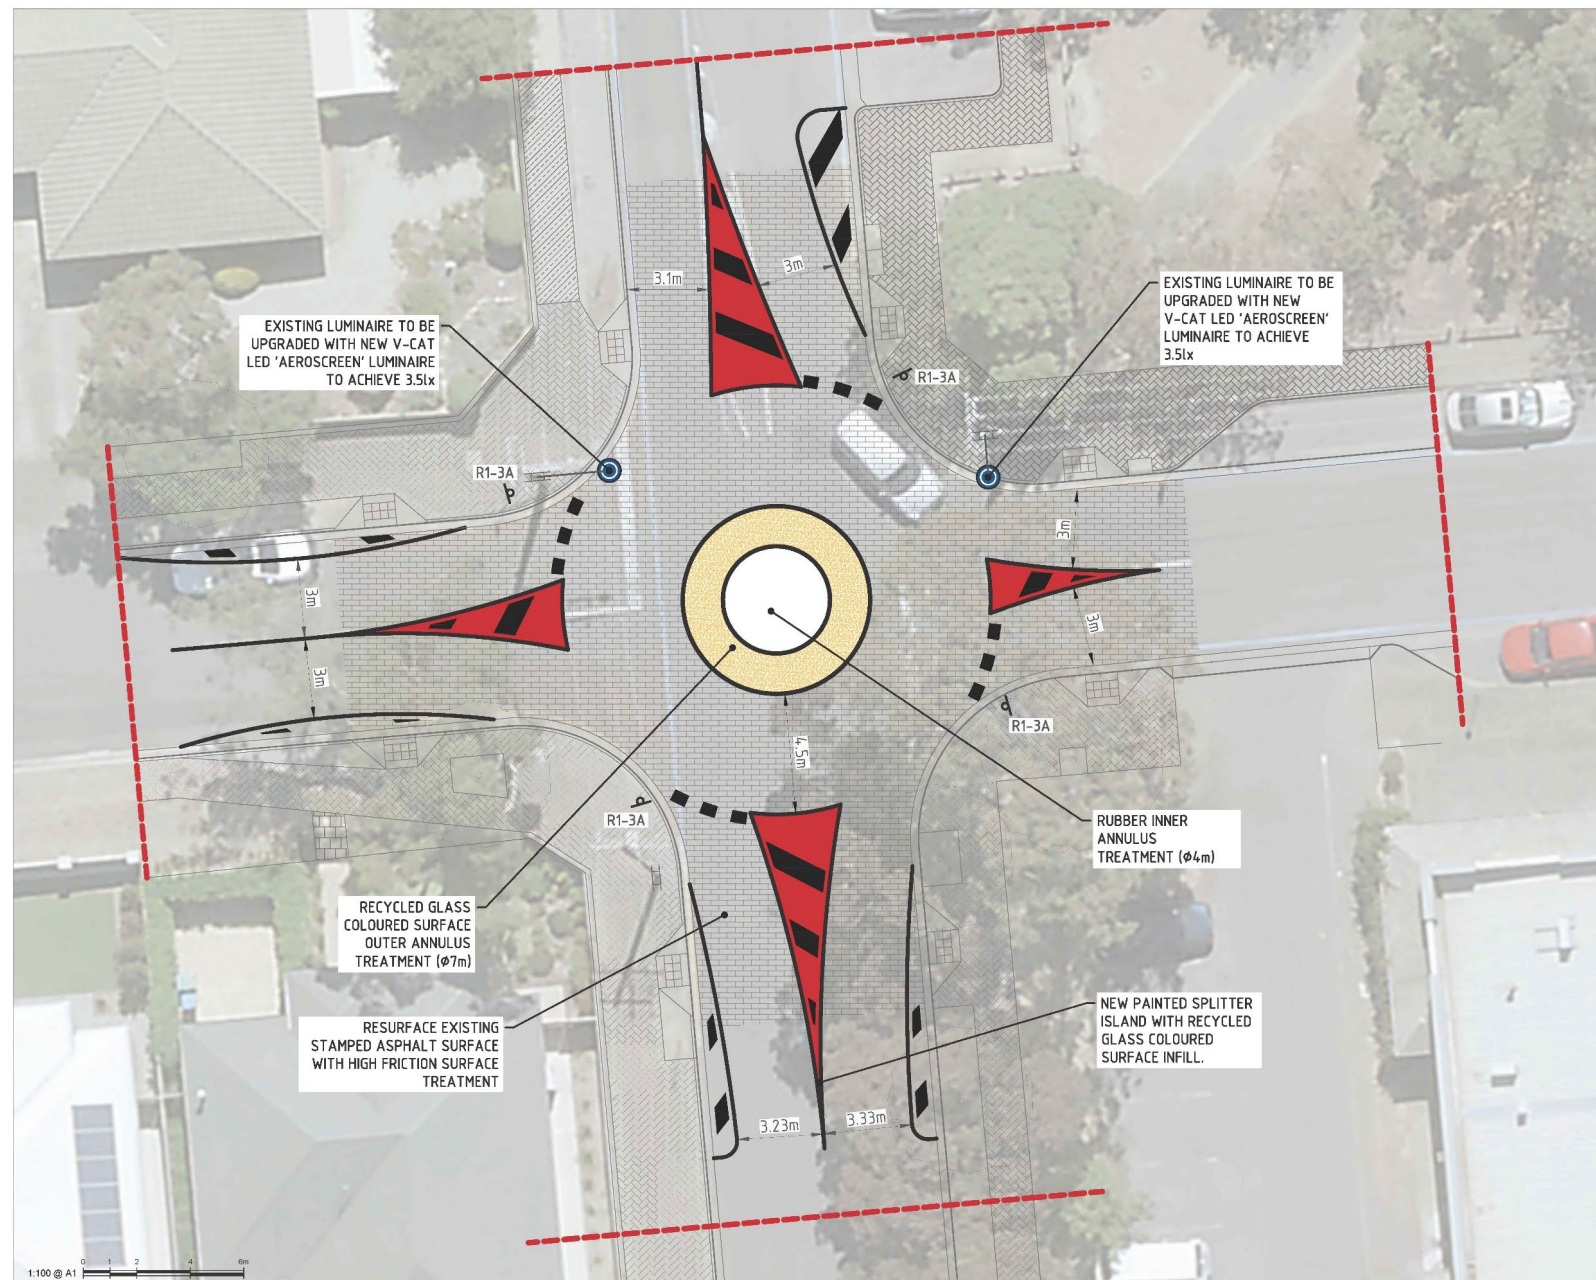

CONSTRUCTION TO COMMENCE

Prior to the end of the 21/22 Financial Year

APPROVED FUNDING OF PROJECT

\$142,000

CONCEPTUAL DESIGN OF PROPOSED WORKS
