

Investing in Water Sensitive Urban Design (WSUD)

Description

Proposal

Invest in continued implementation of Council's Smart Water Management Plan through installation of tree inlets and soakage pits across the City in conjunction with kerbing works.

Community Benefits

- Cool and green our City
- Reduce flooding and pollution problems downstream
- Improve amenity

Rate Impact: 0.01%
Capital (Council): \$125,000
Ongoing (Council): \$9,000

Primary Theme

Theme 2.2 Sustainable Resources*

Community Insight

I feel that Council is embracing alternative materials and methods in constructing roads, pavements and car parks, to lower the impact on our natural environment
