

Dear Residents / Motorist

City of Mitcham has contracted Stabilised Pavements of Australia (SPA) to carry out road rehabilitation and kerbing repairs at Smith-Dorrien Street. Wheaton Rd will be closed to public traffic from 13th of May, from Kitchener St to Hill St for 2 weeks. Works shifts are planned to commence at 7.00am and be completed by 5.00pm each day, with local traffic only along the road. We will ensure that the inconvenience is as small as possible.

Our traffic controllers will provide direction for you and we will endeavor to keep all properties accessible during the works shift, subject to the delays as mentioned above.

In order for the works to be carried out as smoothly, safely and with less inconvenience for yourself, we would ask your co-operation for the following:

1. Please do not allow children to play in the street, and take care to keep your pets away from the works area as heavy equipment shall be present.
2. Strickley obey all directions from traffic control or SPA representatives for your own safety.
3. Pedestrian access will be on the footpath/nature strip.
4. It would be of assistance if you could restrict vehicle movements to a minimum on the worksite during road pavement construction to prevent any construction material from being dragged into your property.

We apologise for any inconvenience this may cause. We look forward to providing you with a new, improved road surface using our specialist treatments, resulting in the recycling of up to 100% of existing site materials.

If you have any concerns, please get in touch with our works manager on 0439 455 882 or the council.

Thank you
